The Department will not issue Specialized Therapeutic Foster Care slots. However, 100 emergency Therapeutic slots will be allocated. Emergency slots require approval from the Resource Development Division, prior to placement. Vendors must submit a list of individuals enrolled in GPS classes to Resource Development by September 14, 2012. The list must include complete contact information (i.e., names, addresses, and telephone numbers) for all GPS enrollees. In addition, vendors must submit verification that homes have been secured to cover awarded slots by December 14, 2012. If after December 14th, the number of homes registered on FACTS do not cover the number of slots awarded, those slots will be reallocated. Verifications must include all required documentation including: names, addresses, telephone numbers, ABI/FBI background check clearances, CANs, and sheets completed for registration on FACTS. Contracts will be reviewed quarterly for utilization.
